

Performance Value

5500 System

www.panasonic.com/pos

The Panasonic® 5500 System is an exciting, full function workstation offering a proven quick-service feature set and purpose-built reliability in one package -- an alternative to high-priced workstations and under-featured ECR's.

Capitalizing on Panasonic resources and experience, the 5500 System offers Quick Service Restaurants effective POS production management and control with advanced Color Kitchen Video and enhanced Drive-Thru functionality.

Easy, yet powerful manager functions are built into the 5500 which offers full PC communications capability. Real time in-store management software or remote communications for the home office expand data management resources.

The Panasonic 5500 System you purchase today is an investment that is ready to grow with your business. Don't delay - serve up success with the Panasonic 5500 POS System.
